

1.3 Company Quality Policy

Jenks & Cattell Engineering Limited specialises in the manufacture and supply of automotive presswork, welded assemblies, laser cutting and fabricated welded assemblies.

The Company has adopted a Total Quality approach seeking to involve all employees in the progression of continual improvement and making quality the responsibility of everyone.

Through the pursuit of excellence, the Company will continue to develop and evaluate competence of all employees, products and systems risk management which meet our own aspirations and our Customers needs and expectations.

Also covers customer approvals (if required), repair confirmation, disassembly, traceability and retention of documented information

It is the policy of Jenks & Cattell Engineering Limited to:
Establish, implement and maintain the impact of all-current or new activities, products or processes providing a framework for setting objectives.

To achieve this policy, the Company operates formal management systems which comply with the requirements of IATF 16949, ISO 9001:2015 and ISO 14001:2015

The systems are regularly reviewed to ensure their effectiveness and efficiency in achieving the Company policy.
